**L. Doria : Calculating the Human: Universal Calculability in the Age of Quality Assurance** before purchasing it in order to gage whether or not it would be worth my time, and all praised Calculating the Human: Universal Calculability in the Age of Quality Assurance:

Why does contemporary calculation develop as calculation of the quality of everything? How should we consider calculation of quality and the relationship between calculation and enhancement of life? These and related questions are addressed through phenomenological investigation and a critical analysis of the social science debate.
