Executive Coach I found this book to be very interesting. It is exactly what the title states and that means it is not for the abject beginner. There are seven sections which include 37 different short papers or essays. What is interesting is that in this, the third edition, the authors have included some web content that you have to download. For example I found that the articles on "Women Succeeding Globally", and "Why 360s Do not Work and How They Can" particularly interesting. And to conclude any time that I have an opportunity to read essays/ articles by Edgar H. Schein I feel enriched.
