Vincent Antonin Leacute;pinay : Codes of Finance: Engineering Derivatives in a Global Bank before purchasing it in order to gage whether or not it would be worth my time, and all praised Codes of Finance: Engineering Derivatives in a Global Bank:

The financial industry's invention of complex products such as credit default swaps and other derivatives has been widely blamed for triggering the global financial crisis of 2008. In Codes of Finance, Vincent Antonin Leacute;pinay,

a former employee of one of the world's leading investment banks, takes readers behind the scenes of the equity derivatives business at the bank before the crisis, providing a detailed firsthand account of the creation, marketing, selling, accounting, and management of these financial instruments—and of how they ultimately created havoc inside and outside the bank.
