I've used it in my work with great success.2 of 3 people found the following review helpful. Not just for Dummies!By A. WatersUnfairly probably; I tend to overlook the 'dummies' series when searching for business topics because, well, 'I'm no dummy'. But I desperately needed a crash course on conflict resolution and didn't have a lot of time to review a whole bunch of books; so bought the Kindle version for reading on a recent trip to prepare for a CR session I had to lead when I returned. I found it well written, highly practical and full of concrete action steps that I did my best to implement. It's a book I intend to revisit quite a bit as I work to be a better manager to my employees at work.0 of 0 people found the following review helpful.
