**From Sage Publications Pvt. Ltd : Economic Challenges for the Contemporary World: Essays in Honour of Prabhat Patnaik** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Economic Challenges for the Contemporary World: Essays in Honour of Prabhat Patnaik:

In view of Prabhat Patnaik's role in advocating progressive reforms and ideas in the global economy, this volume, in his honour, questions conventional thinking in mainstream economics and policy. This book brings together diverse scholarship on various aspects of economic development that underscore the importance of tackling dominant and contemporary issues concerning the national and global economy. Divided into five distinct

themes—economic growth, engaging with globalisation, poverty and inequality, macroeconomic issues, political economy and developmental aspects—the essays outline significantly contrasting methodologies that are used to deal with issues of vital importance. Topical and up-to-date, the volume challenges the laissez faire philosophy and highlights the weaknesses of a free market as well as its inability to deal with the current issues.

"The volume that covers three major themes: the internal contradictions of capitalism, the growth of the Indian economy and the feasibility of socialism... contains essays contributed entirely by Patnaik's former students, especially those whom he guided in their doctoral work. It is a fitting tribute to a teacher who inspired them by his commitment to scholarship and involvement in public affairs."--Frontline, December 9, 2016 "The volume that covers three major themes: the internal contradictions of capitalism, the growth of the Indian economy and the feasibility of socialism... contains essays contributed entirely by Patnaik's former students, especially those whom he guided in their doctoral work. It is a fitting tribute to a teacher who inspired them by his commitment to scholarship and involvement in public affairs." (Frontline, December 9, 2016)

**About the Author**  
Mausumi Das is Associate Professor, Department of Economics, at the Delhi School of Economics, University of Delhi. Her areas of expertise include macroeconomics, economic growth and development. She has published research articles in various reputed international journals, such as Journal of Economic Growth and Journal of Development Economics. Her current research work includes impact of inequality on health investment and its implications for growth; the trade-off between teacher quality, teacher quantity and their growth effects; and choice of public versus private provision of merit goods and its welfare implications. Her doctoral thesis is titled as 'Savings Behaviour and Macrodynamics of Neoclassical Growth Models: Stability and Other Issues' (June 1999).

Sabyasachi Kar is Associate Professor at the Institute of Economic Growth, University of Delhi. He has published a number of books and academic articles on macroeconomics, growth and development economics, with particular focus on the Indian economy. He is currently collaborating with the Effective States and Inclusive Development (ESID), University of Manchester, and the Kennedy School of Government, Harvard University, on an extensive cross-country study of political and economic institutions and their relationship with growth. His doctoral thesis is titled as 'Factors Underlying Growth in Low Income Economies: A Theoretical and Empirical Analysis Based on a Cross-section of Countries' (July 2000).

Nandan Nawn is an Associate Professor and the Head of Department of Policy Studies, TERI University, New Delhi, where he teaches various courses in the interface of environment, development, and economics. He is an economist by disciplinary training with a doctoral degree from Jawaharlal Nehru University. His research interests lie in ecological economics, agrarian studies, and environment and development. His works have been published in various journals including Journal of Agrarian Change, Economic and Political Weekly, and Journal of Human Development and Capabilities. Recently, he has co-edited Economic Challenges for the Contemporary World: Essays in Honour of Prabhat Patnaik (SAGE 2016). Presently, he is a co-editor of the "Environment and Development" in Economic and Political Weekly and the Secretary of the Indian Society for Ecological Economics (INSEE).
