**Stephen Royle : Islamic Development in Palestine: A Comparative Study (Routledge Studies on the Arab-Israeli Conflict)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Islamic Development in Palestine: A Comparative Study (Routledge Studies on the Arab-Israeli Conflict):

This book assesses the capabilities of an Islamic approach in aiding self-organisation by examining the case of the occupied Palestinian territories in conjunction with a comparative analysis of four other nations. Three main mechanisms of Islamic development are explored; finance, microfinance and charity. Identifying the need to recognise the non-linear nature of societal interaction at the individual, community and state levels, the book uses complexity theory to better understand development. It assesses the role of Islamic development at macro and micro levels and identifies issues with rigid and hierarchical policy making.
