good and the bad. His trial and error stories help guide me along the right path and learn how to be a great leader. It's simply an inspiring book which has enlightened my sense of the business world. One of the defining characteristics that this book has to offer, is Robert's ability to teach through personal stories. The way that the book is laid out, with questions at the end of each chapter - each story - helps me to think in ways which I normally wouldn't have. It has made me see the world of business, leadership and even life, through a whole new lens. This is how successful people think! 1 of 1 people found the following review helpful. The author's advice is practical, inspiring and at times down right funny. All in all a great read that I highly recommend! 0 of 0 people found the following review helpful. Great book on developing leadership qualities as you progress through ...By Andrew McGivern Great book on developing leadership qualities as you progress through your career and life. Robert tells personal stories that are both inspiring and full of leadership lessons. The book kept me interested right from the beginning through to the end.

If you thought that leadership was all about mindlessly following directives from above and managing process, policy, and data, then you most likely find that you will be frustrated by your results, success, and happiness. Authentic leadership comes from inside a place where logic meets emotion, where people connect with people, where character is contagious, strategy is simple, and people believe they are making a difference, and are changing the world they live in. It's Already Inside is a leader's journey to unlock the secret to connecting emotionally with people, finding balance, and having a more successful and happy life by inspiring others to discover their remarkable potential. Each chapter features a story-based passage with thought-provoking questions to help you unlock your own authentic greatness. You'll finish It's Already Inside with more insight, focus, and results that will bring more success, better relationships, and happiness.
