**Dawn R. Norris : Job Loss, Identity, and Mental Health** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Job Loss, Identity, and Mental Health:

Our jobs are often a big part of our identities, and when we are fired, we can feel confused, hurt, and powerless—;at sea in terms of who we are. Drawing on extensive, real-life interviews, Job Loss, Identity, and Mental Health shines a light on the experiences of unemployed, middle-class professional men and women, showing

how job loss can affect both identity and mental health.

"This book offers a poignant assessment of the social-psychological consequences of unemployment. Using longitudinal in-depth interviews, Norris shows the profound costs of unemployment for middle-class workers. She also thoughtfully illuminates the importance of gender in the experience of joblessness. Recommended!"
