A. Kakabadse, M. Omar Abdulla, R. Abouchakra, A. Jawad, Mohammad Omar Abdulla : Leading Smart Transformation: A Roadmap for World Class Government before purchasing it in order to gage whether or not it would be worth my time, and all praised Leading Smart Transformation: A Roadmap for World Class Government:

In the turbulence of recent times, how we run corporations has been examined from every angle. Corporations have

proved adept at change; governments have stuck to established rules. The challenge is to put in place machinery to provide services in a way that resists the growth of bureaucracy. The need for SMART government could not be starker.

'This book is an incisive and constructive assault on the ultimate immune system - Government Incorporated.' - David Peters, Managing Partner, CEO Board Practice, EMEA, Heidrick Struggles, London, UK

'This book offers crucial insights into the strategies of the most effective governments in the world, drawing on decades of research and experience. Representing the best of the East and West, this book should be required reading for public servants everywhere.' - Dalia Mogahed, Director, The Abu Dhabi Gallup Center, Appointed in 2009 by President Obama to the White House Faith based and Neighborhood Partnership Advisory Council

'This book is a must read for anyone wanting to make a difference in government. The focus on leadership and transformation is just what is needed. I can only hope that the right people read it!' - Frank Brown, Dean, INSEAD, Paris, Singapore, Abu Dhabi

'Leading Smart Transformation is an important book for managers in leading positions and a must-read for anyone working in public sector reform. This is a timely addition to the literature on public sector reforms. With its clear, hands-on approach, it is bound to become the reference book of choice for practitioners across the globe.' - Alexander Fisher, Managing Director / Member of the Executive Board at the DIW Berlin

'This book is very well written, especially when compared with the many treatises on management. It has the advantage of minimal academic jargon and makes extensive use of examples, including quotations from interviews with key actors involved in transforming governmental organizations. I recommend it for both practitioners and students of public administration.' - Victor H. Vroom, BearingPoint Professor of Management and Professor of Psychology, Yale School of Management

'A new look at re-designing government. No more sterile public and political administration, but a practical, insightful leadership way forward.' - Farhad Analoui, Prof...
