It is a comprehensive, easy-to-understand guide to successfully managing one's financial affairs. Nancy urges us to begin by taking an objective look at our financial life, and

our financial goals. Then, in a conversational and welcoming tone, she walks us through the entire process: organizing documents, analyzing current financial position, and investing with skill and knowledge. Before reading this book, I thought that I had my financial life under control. But, Nancy's standards for staying on top of things are very high, and I learned a great deal from this book. The best part is that Nancy's amiable, non-judgmental writing style allowed me to notice my weak areas without feeling bad about them. She explains complex concepts in a simple, practical manner, all the while writing like she is speaking to a good friend. Highly recommended! 4 of 4 people found the following review helpful. Great book for long-term investors! By Sam P. I got this as a gift for my ex--we're on good terms--and before sending it looked through it thoroughly. I didn't read it page for page, but I got a good idea of how the author went about writing, and I have to say it's good for anyone interested in investing money, especially if he or she is involved in raising a family or taking care of an elderly family member. It has a refreshing, common-sense philosophy and tone. The author, rather than hyping get-rich-quick ideas instead creates a solid, clearly and concisely written work that bears the mark of wisdom, not bombast. Three cheers, and five stars, for Ms. Doyle. (Get your wife/ex-wife one--you'll be glad you did, not just because you can read it, too.) 3 of 3 people found the following review helpful. This is an excellent resource for people who know little about financial management ... By Deirdre Greene This is an excellent resource for people who know little about financial management and for those who already have a solid understanding. The author writes in a very down-to-earth manner and she makes complex information accessible. Highly recommended!
