Reza Kouhy, Rishma Vedd, Takeo Yoshikawa, John Innes : Management Accounting, Human Resource Policies and Organisational Performance in Canada, Japan and the UK before purchasing it in order to gage whether or not it would be worth my time, and all praised Management Accounting, Human Resource Policies and Organisational Performance in Canada, Japan and the UK:

Management Accounting, Human Resource Policies and Organisational Performance in Canada, Japan and the UK examines the relationships between HR policies, management accounting and organisational performance on the basis of international case studies and interviews across a range of industries from building materials to software development. Explores the relationship between different HR policies and organisational performance and how management accountants can establish links between the two. The first to extend existing research into Japanese companies to give a different perspective and another point of comparison. Case study results are tested in the telephone survey for better accuracy and insight. Original, cutting-edge research funded by the Chartered Institute of Management Accountants. Unique international perspective: extends existing research into Japanese companies to give a different perspective and another point of comparison. Results of six extensive case studies and 100 telephone interviews.

From the Back Cover This research project examines the relationships between HR policies, management accounting and organisational performance on the basis of international case studies and interviews across a range of industries from building materials to software development. Explores the relationship between different HR policies and organisational performance and how management accountants can establish links between the two. The first to extend existing research into Japanese companies to give a different perspective and another point of comparison. Case study results are tested in the telephone survey for better accuracy and insight.
