Tony Boczko : Managing Your Money: A practical guide to personal finance before purchasing it in order to gage whether or not it would be worth my time, and all praised Managing Your Money: A practical guide to personal finance:

With student debt now at record levels and people of all ages struggling to meet personal financial commitments, this text gives a simple and practical framework within which to make sound financial decisions.

This book prepares students for life, especially the world of work, whether as an employee or in self-employment. There should be few surprises after having read this text. I wish I had read it before I left higher education.' Siobhan Goggin, Lincoln Business School, UKAbout the AuthorTony Boczko is a lecturer at Hull University Business School, UK. He is the author of six textbooks on introductory accounting, accounting information systems and corporate

finance.
