The Secret to Becoming a Healthy and Effective LeaderBy Rex MillerDr. Osterhaus brings

one of the most difficult challenges every leader faces into clear perspective and in a very accessible way. How to be a healthy leader and build a healthy organization. I was immediately pulled in by the story and then began to see how much of the story not only reflected my challenges in organizations but my personal challenge as to what kind of leader I was. Leaders are great at strategy and execution but few know how to create healthy organizations. I'm buying copies for my clients!

Most of us fear and dread conflict, at home or at work. But conflict can be your ally, not your enemy. Conflict doesn't have to tear your family or organization apart. Using the story of a family business leader embroiled in generational conflict, *Red Zone, Blue Zone* shows how to navigate conflict in a way that is healthy and leads to enhanced relationships, self-awareness, and greater leadership success. Practical response activities and personal reflection questions help the reader understand the sources of conflict, have a working command of conflict navigation principles, and be equipped to help others navigate conflict in their own lives. In *Red Zone, Blue Zone* readers will learn skills such as: Questioning, Listening, Pacing, Reframing
