Jay E. Fishman : Standards of Value: Theory and Applications (Wiley Finance) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Standards of Value: Theory and Applications (Wiley Finance):

1 of 1 people found the following review helpful. This book brought together better than any my views on what are true values ...By CustomerThis book brought together better than any my views on what are true values of assets, enterprises and projects. A definite investment in knowledge. M Burhans, Heart Land Advisors4 of 4 people found the following review helpful. MUST read for valuation professionalsBy HMCThis text clarifies and illuminates our understanding of "standard of value" as a term of art. This volume should be in the library of every valuation

professional.

Expert direction on interpretation and application of standards of value Written by Jay Fishman, Shannon Pratt, and William Morrison—three renowned valuation practitioners—Standards of Value, Second Edition discusses the interaction between valuation theory and its judicial and regulatory application. This insightful book addresses standards of value (SOV) as applied in four distinct contexts: estate and gift taxation; shareholder dissent and oppression; divorce; and financial reporting. Here, you will discover some of the intricacies of performing services in these venues. Features new case law in topics including personal good will and estate and gift tax, and updated to cover the new standards issued since the first edition Includes an updated compendium discussing the standards of value by state, new case law covering divorce, personal goodwill, and estate and gift tax, and coverage of newly issues financial standards Shows how the Standard of Value sets the appraisal process in motion and includes the combination of a review of court cases with the valuator's perspective Addresses the codification of GAAP and updates SOV in individual states Get Standards of Value, Second Edition and discover the underlying intricacies involved in determining "value."
